

# Cooperation between Verkmenntaskólinn, Iceland, and Charlottenlund videregående skole, Norway

A preparatory visit Charlottenlund to Akureyri, 03.- 05.02.2014

## Introduction

The idea of creating a stable cooperation between Verkmenntaskólinn and Charlottenlund videregående skole was founded in October, 2013, when Jóhannes Árnason and Torkild Svorkmo-Lundberg met and discussed this. An overview of possible collaboration themes is given [here](#). The general idea is that the schools have much in common, and therefore the potential of creating a sound and fruitful collaboration is great. The goal of this visit is to get these ideas further and put into practice by making further arrangements and apply for possible projects.

Details:

Visitors:
